### Investing in our schools

As part of the NSW Government's plan to rebuild public education, the 2024-25 Budget is delivering record education funding, including \$3.6 billion for new and upgraded schools in Western Sydney. This targeted investment will ensure growing communities get access to a world class public education.

### Project overview

A project to upgrade Condell Park High School is progressing, with artists impressions now available. The upgrade includes brand new modern facilities in two new buildings and refurbishment across the existing school.

16 new classrooms with  
4 shared learning commons

Secure entrance on Third Avenue with  
separate public and student entrances

New school hall and canteen  
with multipurpose sport court

Refurbishment of Block E including the  
expansion of support learning unit into  
7 support classrooms

New staff car park and  
loading zone

Removal of demountable classrooms

The upgrade will also include a major refurbishment of the existing administration block and refurbishment works to Buildings A and C.

A separate project to upgrade the school library is underway. More details will be provided on these works in the future.

### Progress update

- Concept designs have been developed for the school upgrade in consultation with the Condell Park High School leadership team. You can see some early artist impressions on both pages of this update. Note these are not final and are subject to change as the design and planning approvals progress.

## Next steps

- A community information session will be held in Term 4 2024 to share detailed designs with the school community and answer questions about the upgrade.
- The planning application will be submitted and a tender process to appoint a contractor to complete the design and construction works will occur.
- A timeline for completion of the works will be developed with the appointed contractor.
